

Data

☐ **Named areas**

Naming cell range	5
Managing cell names	7
Selecting a range of cells by name	8
Displaying a list of names and associated references	8

☐ **Optimising data entry**

Creating a custom lists	9
Modifying/deleting custom lists	10
Creating a drop-down list	10
Defining acceptable data	12
Adding comments to cells	14
Splitting the content of one cell across several cells	15

☐ **Hyperlinks**

Creating a hyperlink	17
Activating a hyperlink	19
Modifying/deleting a hyperlink	20

☐ **Importing/Exporting**

Importing data from an Access database	21
Importing data from a web page	22
Importing data from a text file	23
Refreshing imported data	25
Modifying refresh settings	25
Activating a connection	27
Managing Workbook Connections	28
Inserting an object from another application	29
Exporting Excel data to another application	30

Files

☐ **Templates**

Creating a custom workbook template	33
Creating a default workbook or worksheet template	34

☐ **Web pages**

Introduction	35
Saving a workbook as a Web page	35
Publishing a workbook	36

Calculations

☐ **Advanced calculations**

Using dates in calculations	39
Calculating using time	42
Using the LOOKUP function	43
Consolidating data	44
Using the PMT financial function	45
Calculating the present value of an investment	46
Creating double input data tables	46
Calculating with array formulas	47
Using the Equation Editor	48

Analysis tools

[-] Scenarios and goals	
Setting a value goal	51
Making scenarios	52
[-] Auditing	
Displaying formulas instead of results	54
Finding and correcting errors in formulas	54
Evaluating formulas.	56
Using the Watch Window	57
Tracing relationships between formulas and cells.	57
[-] Solver	
Finding and activating the Solver Add-in	59
Defining and solving a problem using the Solver.	60
Show intermediate Solver solutions	63

Presenting data

[-] Conditional formatting	
Applying preset conditional formatting	65
Creating a conditional formatting rule	66
Formatting cells according to their content	69
Remove all conditional formatting.	70
Managing conditional formatting rules	71
[-] Styles and themes	
Applying a cell style.	72
Creating a cell style	72
Managing existing cell styles	73
Applying a theme to a workbook.	74
Customising theme colours	74
Customising theme fonts	75
Customising theme effects	76
Saving a theme.	77

Graphic objects

[-] Graphic objects	
Creating a graphic object	79
Insert a picture file.	80
Inserting clip art.	80
Inserting a screenshot	82
Inserting a diagram (SmartArt)	83
Managing diagram shapes	85
Modifying the general appearance of a diagram	86
[-] Managing objects	
Selecting objects	87
Managing objects	87
Changing the style of an object	88
Modifying the format of a picture.	90
Cropping a picture	91
Removing the background from a picture	93
Changing picture resolution.	93
Formatting object text	94

Excel tables and Pivot tables

☐ Excel tables

Creating an Excel table	95
Naming an Excel table	95
Resizing an Excel table	96
Hiding/displaying table headers	96
Adding a row/column to an Excel table	96
Selecting rows/columns in an Excel table	96
Displaying a totals row in an Excel table	96
Creating a calculated column in an Excel table.	97
Applying a table style to an Excel table.	97
Converting an Excel table to a data range.	98
Deleting an Excel table and its data	98

☐ Pivot tables

Creating a pivot table	99
Managing fields in a Pivot Table	101
Inserting a calculated field.	103
Changing the summary function or custom calculation type on a field	105
Using total and subtotal fields.	107
Filtering a Pivot Table	110
Grouping elements in a Pivot Table	115
Modifying the layout/presentation of a Pivot Table	118
Refreshing Pivot Tables	120
Deleting a Pivot Table	120

☐ PivotChart

Creating a PivotChart	121
Deleting a PivotChart	121
Filtering a PivotChart	122

Group work

☐ Protection

Protecting a workbook with a password	123
Protecting workbook elements.	123
Protecting worksheet cells	124
Authorising cell access for certain users	125

☐ Group work

Introduction	127
Allowing several users to edit a workbook simultaneously.	127
Protecting a shared workbook	128
Modifying a shared workbook	129
Resolving conflicting changes.	129
Tracking changes	130
Accepting or rejecting changes	131
Remove a user from a shared workbook	131
Stop sharing a workbook	132
Using the accessibility checker	132

Various advanced features

☐ **Macros**

Setting up Excel to use Macros	135
Recording a macro	135
Running a macro.	136
Running a macro on a graphic object	136
Modifying a macro.	137
Deleting a macro	138
Saving a workbook containing macros.	138
Enabling macros in the active workbook	139

☐ **Customising**

Moving the Quick Access toolbar	140
Customizing the Quick Access toolbar	140
Displaying/hiding ScreenTips.	141
Customising the status bar.	142
Customising the Ribbon.	142
Exporting/importing a custom Ribbon	145
