

Microsoft Word 2010

Environment

Starting/exiting Word 2010	7
Using/Managing the ribbon	8
Undoing/Redoing/Repeating actions	9
Showing/Hiding non-printing characters	10
Changing the zoom	10
Changing the view.	11

Managing documents

Documents

Creating/opening/saving a document	13
Using the list of recent documents	14
Recovering a version of a document	15
Creating a document from a template	18
Using files from previous versions of Word	22
Saving a document in PDF or XPS format	24
Choosing document properties.	26
Inserting a document into another	27
Comparing two documents side by side	27
Sending a document by e-mail	29
Saving a document in Windows Live SkyDrive	30
Publishing a document as a blog post.	33

Entering and editing data

Entering and editing text

Selecting text	37
Entering/deleting text	37
Using spellchecker/automatic formatting	38
Using tabs	39
Inserting non-breaking hyphens/spaces.	39
Inserting the current date.	39
Inserting symbols into your text	40
Inserting a page break.	41
Inserting a line break.	42
Moving/copying part of a text.	42
Moving/copying text without the clipboard.	43

AutoText

Creating an AutoText	44
Using an AutoText	45
Managing AutoText.	46

Mathematical equations

Inserting an equation	48
Writing an equation	48
Managing equations	49
Saving an equation	50

Fields

Inserting a field	51
Displaying/hiding field codes	51
Updating a field	52

Table of contents

Printing

☐ Page layout

Changing the page orientation	53
Changing the margins of a document	53
Inserting a predefined header	56
Creating a custom header or footer	57
Managing headers and footers	60
Numbering the pages in a document	62
Managing page numbers	64

☐ Printing

Using print preview	66
Printing a document	67

Presentation and formatting

☐ Characters

Formatting characters	69
Using OpenType functions	70
Changing the space between characters	72
Applying a gradient to characters	73
Applying an outline to characters	75
Applying a shadow to characters	78
Applying a reflection to characters	80
Applying a glow effect to characters	83
Applying a 3-D effect to characters	86
Changing the default appearance of characters	88
Applying a character style	89

☐ Paragraphs

Introduction	91
Setting a tab stop	91
Managing existing tab stops	93
Indenting paragraphs	93
Modifying text alignment in paragraphs	95
Changing the line spacing	95
Modifying paragraph spacing	95
Preventing a break between lines or paragraphs	96
Drawing borders around paragraphs	96
Applying a background colour to a paragraph	98
Changing the appearance of a paragraph	99
Applying a paragraph style	99
Creating a Drop Cap	102

☐ Pages

Inserting a cover page	104
Managing cover pages	105
Inserting a blank page	106
Aligning text vertically	106
Applying a border to a page	107
Creating a watermark	109
Managing watermarks	112

☐ Text formatting

Displaying text formatting	113
Comparing the formatting of two texts	114

Table of contents

Selecting all text with the same formatting	115
Deleting a type of formatting	116
Copying formatting	116

Presentation

Creating and formatting a section	117
Numbering paragraphs or putting bullets in front of them	117
Creating a multi-level list	121
Presenting text in columns	123
Inserting a column break	123

Themes, styles and templates

Themes

Applying a theme to a document	125
Customising a theme	125
Saving a document theme	127

Styles and Styles Set

Creating a style	129
Creating a list style	132
Select texts with the same style	133
Cancel a style	133
Managing styles	136
Changing the style set	139
Saving a new style set	139
Importing styles	140

Templates

Creating a template	143
Modifying a document template	145
Changing the template associated with a document	145

Revising text

Finding and replacing text

Finding text	147
Replacing one item of text with another	149
Replacing one format with another	150
Finding/replacing special formatting characters	151
Using advanced search criteria	152

Spelling and grammar

Checking the spelling and grammar of a document	153
Customising the spell check	154
Using a custom dictionary	154
Using AutoCorrect	155
Specifying the language used	157
Counting sentences, words and other elements in a document	158

Other revisions

Using the thesaurus	159
Translating text	160
Hyphenating words	162

Table of contents

Managing long documents

☐ Notes and bookmarks

Creating footnotes and endnotes	165
Managing existing notes	166
Working with bookmarks	166
Creating cross-references	167

☐ Outlines and reference tables

Creating an outline using preset styles	169
Assigning an importance level	170
Working with a document outline	170
Using the Navigation Pane	171
Numbering headings	174
Customising numbering on outline headings	175
Creating a table of contents	176
Updating a table of contents	183
Saving a table of contents	183
Creating an index	184
Updating an index	189
Creating a table of figures	189
Creating a table of authorities	191
Creating a bibliography	193
Managing sources	197

☐ Master document

Creating a master document	199
Using a master document	199

Tables

☐ Creating a table

Inserting a table	201
Selecting within a table	202
Placing and using tabs in a table	203
Inserting a column/row	203
Inserting cells	203
Deleting rows/columns/cells	203
Splitting a table in two	204
Merging cells	204
Splitting cells	204
Sorting a table	205
Sorting one column of a table	205
Convert text into table	206
Fixing column headings	206
Making calculations	207

☐ Formatting a table

Modifying column width/row height	209
Standardising column widths/row heights	210
Increasing the spacing between cells in a table	210
Changing cell margins in a table	211
Changing the cell alignment	212
Applying an AutoFormat to a table	212
Modifying borders in a table	213
Applying a fill colour to cells	214
Resizing a table	215

Moving a table with the move handle	215
Positioning a table across a page.	216
Saving a table to the gallery	216

Objects

☐ Drawn objects

Drawing a shape.	217
Creating a text box.	218
Linking two text boxes	218
Insert a screenshot	219
Creating a WordArt object	219
Editing WordArt	220
Inserting a diagram (SmartArt graphic)	222
Modifying a diagram	223
Changing the layout of a diagram	225

☐ Images

Finding and inserting an image, sound or video	227
Inserting an image from a file.	229
Defining image compression settings	229
Resizing an inserted image	230
Cropping an image	231
Deleting a picture's background.	232
Changing the image brightness, contrast, sharpness and colours.	235
Apply a style and/or effect to an image.	235
Apply an artistic effect to an image	236
Undoing the formatting applied to an image	237

☐ Managing objects

Managing objects	238
Managing the drawing gridlines	238
Positioning an object.	239
Changing an object's wrapping.	240
Attaching a caption to an object	242
Aligning/distributing objects.	243
Changing the object stacking order	244
Grouping/ungrouping objects	244
Changing one shape with another.	244
Rotating an object or picture.	245
Applying a style to an object	245
Modifying the outline of an object or picture	245
Changing an object's fill.	246
Applying an effect to an object.	247
Applying a 3-D rotation effect to an object.	248
Saving a text box	250

Bulk mailing tools

☐ Forms

Creating a form	251
Inserting content controls in a form.	251
Defining content control properties	252
Protecting a form.	255
Using a form	256

Table of contents

✚ Mailing

Planning a mail merge	257
Creating a mail merge	257
Opening a main document	262
Creating a list of data	262
Managing the records in a data list	263
Setting criteria for a mail merge	266
Setting a condition for displaying text	267
Sorting a list of data	268
Creating mailing labels	269

Various advanced features

✚ Import/export

Copying data from Excel to Word	271
Inserting an Excel spreadsheet into Word	272
Inserting an object	272
Inserting a hyperlink	273

✚ Group work

Managing comments	276
Make a document available to multiple users	277
Changing track changes options	278
Merging documents	279
Accepting or rejecting changes	282
Protecting a document	282
Restricting document formatting	284
Associating a password with a document	285
Marking a document as final	286

✚ Customising Word

Customising the Quick Access Toolbar	287
Customizing the Ribbon	288
Defining keyboard shortcuts	292
Managing building blocks	293

✚ Macros

Displaying the Developer tab	295
Creating a macro	295
Running a macro	296
Editing a macro	296
Deleting a macro	296

Appendices

Shortcuts	297
Best practice	300
Index	305
