

	Environment	3
	Starting Excel 2016	4
	Leaving Excel 2016	7
	Using/managing the ribbon	7
	Introducing the File tab	8
	Undoing the most recent actions	9
	Redoing the last cancelled actions	9
	Repeating the last action	9
	Using Intuitive Help	10
	Views	12
	Changing the display mode	13
	Activating/deactivating the Touch/Mouse Mode	14
	Modifying the formula bar display	15
	Displaying/hiding gridlines, line and column headers	16
	Changing the zoom setting	16
	Activating one or more windows	16
	Viewing a workbook in two different windows	17
	Arranging the window view	17
	Displaying/hiding a window	18
	Freezing/unfreezing rows or columns	18
	Splitting a window into several panes	19
	Workbooks	21
	Creating a new workbook	22
	Creating a workbook from a template	22
	Creating a custom template	25
	Opening a workbook	26
	Saving a workbook	29
	Using the OneDrive online storage area	31
	Using Excel 2016 workbooks in previous versions	33
	Using workbooks from pre-2007 versions of Excel	35
	Saving a workbook in PDF or XPS format	37
	Displaying/editing workbook properties	39
	Comparing two workbooks side-by-side	41
	Closing a workbook	42
	Choosing the default local working folder	42
	Managing settings for automatic workbook recovery	43
	Recovering a previous version of a file	43
	Sending a workbook by e-mail	45
	Using the accessibility checker	46

	Movement/selection	48
	Moving around in a worksheet	49
	Accessing a particular cell	49
	Searching for a cell	50
	Selecting cells	51
	Selecting rows/columns	52
	Selecting cells by content	52
	Data entry and editing	55
	Entering constant data (text, values, etc.)	56
	Inserting special characters	57
	Inserting the system date/time in a cell	57
	Using the AutoComplete feature	58
	Using Flash Fill to complete a column	58
	Entering the same data in several cells	68
	Entering line breaks in a cell	68
	Creating series of data	68
	Using the Equation editor	70
	Creating and managing hyperlinks	75
	Activating a hyperlink	78
	Modifying the contents of a cell	79
	Clearing cell contents	79
	Replacing the contents/format of one cell with the contents/format of another	80
	Checking the spelling	81
	Copying and moving	83
	Copying into adjacent cells	84
	Copying and moving cells	84
	Copying cells to other sheets	85
	Using the Office Clipboard	86
	Copying a format	90
	Copying cell content, results and/or formats	90
	Transposing data as you copy	91
	Copying Excel data and establishing a link	91
	Making simple calculations while you copy	92
	Copying data as a picture	92
	Worksheets	94
	Activating a worksheet	95
	Renaming a sheet	95
	Selecting worksheets	95
	Changing the colour of the worksheet tabs	95
	Displaying/hiding a worksheet	96
	Displaying a background picture in the worksheet	96
	Moving/copying one or more sheets	97
	Inserting/adding worksheets	98
	Deleting worksheets	98

■ Rows, columns, cells	99
Inserting rows/columns	100
Deleting rows/columns	100
Modifying the row height/column width	100
Adjusting row height and column width	100
Inserting empty cells	100
Deleting cells	101
Moving and inserting cells/rows/columns	101
Removing rows containing duplicates	102
■ Named areas	104
Naming cell range	105
Managing cell names	107
Selecting a range of cells by name	109
Displaying a list of names and associated references	109
■ Calculations	110
Learning about calculation formulas	111
Creating a basic calculation formula	111
Creating an absolute cell reference in a formula	112
Entering a formula from more than one sheet	113
Creating a formula with a function	114
Using AutoComplete to enter a function	116
Summing a group of cells	117
Using simple statistical functions	117
Creating a basic conditional formula	118
Creating a nested conditional formula	120
Counting cells which meet specific criteria (COUNTIF)	121
Calculating the sum of a range which meets a criterion (SUMIF)	123
Using named ranges in calculations	123
Inserting rows of statistics	124
■ Advanced calculations	126
Using dates in calculations	127
Calculating using time	132
Using the LOOKUP function	133
Consolidating data	134
Creating double input data tables	136
Calculating with array formulas	137
■ Scenarios and goals	139
Setting a value goal	140
Making scenarios	141
■ Auditing	144
Displaying formulas instead of results	145
Finding and correcting errors in formulas	145

Evaluating formulas	147
Using the Watch Window	148
Tracing relationships between formulas and cells	148
Solver	151
Finding and activating the Solver Add-in	152
Defining and solving a problem using the Solver	152
Show intermediate Solver solutions	156
Standard formatting	158
Modifying the font and/or font size	159
Applying a number format	162
Creating a custom format	163
Data alignment	166
Distribute an entry across the height of the row	167
Modifying the orientation of cell content	167
Aligning cell content	168
Indenting cell contents	168
Merging cells	168
Centring content across several columns	169
Borders and fills	171
Applying cell borders	172
Applying a background colour to cells	174
Applying a pattern or fill effect to cells	174
Conditional formatting	177
Applying preset conditional formatting	178
Creating a conditional formatting rule	180
Formatting cells according to their content	183
Remove all conditional formatting	184
Managing conditional formatting rules	185
Styles and themes	186
Applying a cell style	187
Creating a cell style	187
Managing existing cell styles	188
Applying a table style	188
Applying a theme to a workbook	190
Customising theme colours	191
Customising theme fonts	192
Customising theme effects	193
Saving a theme	194
Sorting and Outlines	195

Sorting data in a table by the content of one column	196
Sorting data by cell or font colour, or icon set	196
Sorting table data using several criteria	197
Using an outline	199
Filtering data	202
Activating automatic filtering	203
Filtering data by content or formatting	203
Filtering using custom criteria	207
Using data specific filters	207
Filtering using several criteria	208
Clearing a filter	209
Creating a complex filter	209
Filtering an Excel table using slicers	211
Generating statistics for data filtered using a criteria range	213
Page setup	215
Modifying page setup options	216
Creating a print area	217
Inserting/deleting a manual page break	217
Repeating lines/columns on each page	217
Creating and managing page headers and footers	218
Creating a watermark	220
Using views	221
Printing	222
Using print preview	223
Printing a workbook/worksheet/selection	224
Creating charts	226
Creating a chart	227
Activating/deactivating an embedded chart	235
Moving a chart	236
Switching chart data	236
Changing the chart data source	236
Adding one or more data series to a chart	237
Deleting a chart data series	238
Changing the order of the chart data series	238
Changing the axis data labels	238
Managing chart templates	238
Creating/deleting sparklines	239
Changing a sparkline	242
Chart options	244
Selecting elements in a chart	245
Changing the type of chart/data series	245
Applying a predefined chart layout	246

Displaying a chart element	247
Changing the category axis options	249
Changing the value axis options	254
Creating a combination chart with a secondary axis	258
Editing data labels	260
Applying a quick style to the chart	261
Adding a trendline to a chart	262
Changing the orientation of text in an element	264
Formatting a 3D chart	266
Changing the orientation/perspective of a 3D chart	267
Modifying a pie chart	269
Linking the points in a line chart	271
Graphic objects	273
Creating a graphic object	274
Inserting a picture file	275
Inserting a screenshot	276
Inserting a diagram (SmartArt)	278
Managing diagram shapes	280
Modifying the general appearance of a diagram	282
Managing objects	283
Selecting objects	284
Managing objects	285
Changing the style of an object	287
Modifying the format of a picture	290
Cropping a picture	291
Removing the background from a picture	292
Changing picture resolution	294
Formatting object text	296
Excel tables	298
Creating an Excel table	299
Naming an Excel table	299
Resizing an Excel table	300
Hiding/displaying table headers	300
Adding a row/column to an Excel table	300
Selecting rows/columns in an Excel table	300
Displaying a totals row in an Excel table	301
Creating a calculated column in an Excel table	302
Applying a table style to an Excel table	303
Converting an Excel table to a data range	303
Deleting an Excel table and its data	303
Pivot Tables	304
Choosing a recommended Pivot Table	305
Creating a Pivot Table	306
Creating a Pivot Table based on more than one table	309

Managing fields in a Pivot Table	311
Inserting a calculated field	315
Changing the summary function or custom calculation type on a field	317
Using total and subtotal fields	320
Filtering a Pivot Table	323
Grouping elements in a Pivot Table	329
Filtering dates interactively (timeline filter)	334
Modifying the layout/presentation of a Pivot Table	336
Refreshing Pivot Tables	338
Deleting a Pivot Table	338
PivotChart	339
PivotChart	340
Creating a PivotChart	341
Deleting a PivotChart	342
Filtering a PivotChart	342
Protection	344
Protecting a workbook with a password	345
Protecting workbook elements	345
Protecting worksheet cells	346
Authorising cell access for certain users	347
Creating and using a digital signature	349
Group work	353
Introduction	354
Sharing and protecting a workbook	354
Tracking changes	357
Co-authoring a single workbook in real time	360
Optimising data entry	366
Creating a custom list	367
Modifying/deleting custom lists	367
Creating a drop-down list	368
Defining acceptable data	370
Adding comments to cells	372
Splitting the content of one cell across several cells	373
Importing data	375
Importing data from an Access database	376
Importing data from a web page	377
Importing data from a text file	378
Refreshing imported data	379
Macros	381
Setting up Excel to use Macros	382
Recording a macro	382

Running a macro	383
Running a macro on a graphic object	384
Modifying a macro	384
Deleting a macro	385
Saving a workbook containing macros	385
Enabling macros in the active workbook	386
Web pages	387
Introduction	388
Saving a workbook as a Web page	388
Publishing a workbook	389
Customising	391
Moving the Quick Access toolbar	392
Customizing the Quick Access toolbar	392
Displaying/hiding ScreenTips	393
Customising the status bar	394
Customising the Ribbon	395
Exporting/importing a custom Ribbon	397
Managing accounts	399
General information about user accounts	400
Adding or signing into an account	400
Activating an account	401
Customising an account	402
Adding or removing a service	404
Managing Office software updates	405
Appendices	407
Keyboard shortcuts	408
